SMT-08

# TR-20

Ideal 2WD tractor front tire with its special 3Rib design.

- The rib design provides ultimate steering performance during soil tillage operations also across soft and cultivated areas.
- Highly resistant to cut and wears due to its strong nylon carcass structure.
- Offers long service life.
- Flexible carcass structure prevents sinking.
- Special tread design provides efficient self-cleaning.

## ALL SIZES

6.00-16	6PR	TT	88/A6
6.00-16	10PR	TT	98/A8

9.00-16	8PR	TT	111/A6
11.00-16	8PR	TT	118/A6

# TR-25

Front tire for 2WD tractors appropriate to use on field and short distance road operations.

- Durable shoulders increase tire resistance to any kind of damage and protect the tire effectively. Specially rounded thread root offers high endurance to stubble impacts and fissures.
- The strong carcass structure provides longevity.
- Special tread geometry provides easy steering.
- Flexible carcass structure prevents sinking.

ALL SIZES

7.50-16	8PR	TT	103/A6

# TR-30

Front tire for 2WD tractors appropriate to use on field and short distance road operations.

- Tread pattern and flexible carcass structure provide excellent maneuverability without sinking into the soil.
- Improved tread compound enable high resistance against wear and cuts
- Strong center and shoulder design provides high resistance to side impacts and tread base fatigue. Special tread geometry provides easy steering.
- Flexible carcass structure prevents sinking.

7.50- 16	8PR	TT	103/A6

# TR-35

Ideal 2WD tractor front tire with its special 3Rib design.

- The rib design provides ultimate steering performance during soil tillage operations also across soft and cultivated areas.
- Highly resistant to cut and wears as a result of its strong nylon carcass structure.
- Offers long service life.
- Flexible carcass structure prevents sinking.
- Special tread design provides efficient self-cleaning.

# TR-55

High traction R1 tractor front tire for medium and low powered tractors.

- Offers effective self-cleaning feature and grip performance during tillage operations by its special tread geometry.
- Highly resistant to cuts and wears.
- Tread profile provides high resistance to tread base fatigue.
- Wide and strong body provides easy grip and high traction.
- Special tread geometry provides efficient self-cleaning.

# TR-65

Tractor rear tire suitable for field operations

- Provide excellent and extra traction in all working condition by high lugs
- Resistant to cuts and wears thanks to its special compound.
- Strong nylon carcass structure provides optimum durability.
- Open center pattern provides efficient self-cleaning and offers high resistance to tread base fatigue.
- Safe handling on hilly or sloping grounds.

ALL SIZES

16.9/14-30	8PR	TT	137/A6

16.9/14-30	12PR	TT	144/A6

# TR-300

R1 tractor rear tire.

- The special lug design reduces any kind of crop damage during field operations.
- Exceptional carcass structure provides optimum durability.
- Tread profile with extra wide tread base provides perfect resistance to tread base fatigue.
- Wide and reinforced body provides easy grip, high traction and reduced slipping.
- Special tread design for tough terrains provides superior performance.
- Easy lug cleanability.

# TR-330

R1 tire designed for high load tractor and harvester applications

- With its specially developed tread design, it provides superior traction without damaging your crops and compacting the soil.
- With its specially developed tread compounds and lug geometry, it offers high resistance against lug fatigue and tread wear.
- Low profile structure provides excellent maneuverability and handling comfort.
- Reduced vibration with frequently placed lugs.
- Superior durability against cuts and impacts with reinforced sidewalls.
- Offers high load capacity.

**SIZE**

30.5L-32	12PR	TL	158/A8
----------	------	----	--------

# TR-110

General purpose R1W tractor front and rear tire.

- Provides optimal traction and high performance during its service life.
  - Wide footprint provides lower soil compaction.
  - Ensures a balanced steering by reduced slip at all surface.
  - Offer excellent self-cleaning features.
- Special tread compound provides high resistance against wears and cuts
- Tread profile provides high resistance against tread base fatigue.
  - Special tread structure provides less sinking at soft surfaces. Wide footprint provides lower soil compaction.
  - Ensures a balanced steering by reducing slip at all surfaces.

RF: REINFORCED

# TR-120

General purpose R1W farm front and rear tire with narrow profile suitable to use on modern sprayers and row crop tractors.

- Reduced tire width enable easy driving between corps and plant without causing any damage to them.
- Keep the tread pattern free from the mud by special deep lugs.
- Offers robustness and high load capacity.
- Strong nylon carcass structure provides optimum durability.

# TR-130

R1W tire for high power tractors and harvesters.

- Whether driving on the road or on the field offers comfort.
- Unique tread design and strong carcass offers high traction and excellent handling on the field and tillage operations.
- No plants damage thanks to its rounded lugs.
- Perfect performance under heavy loads as a result of its extra reinforced structure.
- It does not sink into the ground and absorbs the impacts thanks to the elastic structure.
- Perfect grip to soil and slide free transmission of power to the ground with tread geometry, designed differently on center and shoulders.
- Prevention from side rolling.
- High safety thanks to improved lateral resistance with reinforced sidewall and carcass structure.

650/65 R42 (20.8 R42)	TL	170 D/173 A8

# TR-130 IF Series

R1W tire for high power tractors.

- Highly flexible sidewalls offer comfort and reduce fuel consumption.
- Perfect performance under heavy loads with lower pressure compare to traditional radial tire constructions.
- It does not sink to the ground and absorbs the impacts thanks to the elastic structure.
- Perfect grip to soil and slide free transmission of power to the ground with tread geometry, designed differently on center and shoulders
- Special tread design provides superior performance.
- Tires designed to operate at 20% higher rated load than standard tires at the same air pressure

## ■ ALL SIZES

### TR-130/70-IF SERIES

IF 600/70 R30	TL	165 D
IF 800/70 R38	TL	184 D

IF: Improved Flexion

# TR-140

General purpose R1W tractor front and rear tire.

- Offers durability for a wide spectrum of applications.
- Special tread compound provides high resistance against wear and cuts.
- Special tread structure provides high traction and less sinking at soft surfaces.
- Wide footprint provides lower soil compaction.
- Strong wear-resistant compound provides high resistance against wear and cuts, offers longevity.
- Ensures a balanced steering by reduced slip at all surfaces.
- It does not sink into the ground and absorbs the impacts thanks to the elastic structure.

## SIZE

### TR-140/85 SERIES

340/85 R28 (13.6 R28)	TL	127 A8/124 B
-----------------------	----	--------------

# HST-70 VF

Multipurpose VF (Very High Flexion) all steel radial tire designed hold up to heavier loads.

·Thanks to VF (Very High Flexion) technology shows equal loading and driving performance under low pressure levels, compare to conventional tires.

·Tread compound provides resistance to cuts and wears on asphalt, hard soil and concrete surfaces.

·Wide footprint provides lower soil compaction.

·Specially steer carcass structure offers high endurance to stubble impacts and fissures.

·Protect crops effectively by its high flexion specialty.

## SIZE

VF 285/70	R19.5	16PR	TL	150/D
-----------	-------	------	----	-------

VF: Very High Flexion

# SM-160

Ideal trailer tire.

- Offers high loading capacity with minimum soil compaction thanks to special 3 rib tread design.
- High resistance reinforced carcass structure improves resistant performance against cuts and wears, also enables longevity.
- Offers excellent self-cleaning features.

## SIZE

7.50-16	10PR	TT	116/A6
---------	------	----	--------

# SM-270

Traction type trailer tire with heavy resistance.

- With special deep and tread geometry highly resistant to cuts and tread wear.
- Durable tire thanks to its reinforced sidewalls.
- High load capacity, self-cleaning and high resistance against side impacts.

## SIZE

7.50-16	12PR	TT	121/A6
---------	------	----	--------

# RM-50

Traction type trailer tire with heavy resistance.

- Suitable for transport and soil tillage operations.
- Special tread and carcass structure offers high load capacity.
- Wide and deeper tread design provides high resistance against cuts and tread fatigue.

■ ALL SIZES

9.00-16	12PR	TT	125/A6
9.00-16	14PR	TT	128/A6
9.00-16	16PR	TT	131/A6

# RM-60

Traction type trailer tire.

- Suitable for short period transport and use in the field areas.
- Special tread and carcass structure offers high load capacity.
- With its specially developed tread compound and geometry, it offers high resistance against lug fatigue and tread wear.

■ SIZE

8.25-20	14PR	TT	133/A6
---------	------	----	--------

# RM-70

Traction type trailer tire.

- Suitable for short period transport and use in the field areas.
- Special tread and carcass structure offers high load capacity.
- With its specially developed tread compound and geometry, it offers high resistance against lug fatigue and tread wear.
- It does not sink into the ground and absorbs the impacts thanks to the flexible carcass structure.

**SIZE**

9.00-20	14PR	TT	133/A6
---------	------	----	--------

# RM-80

Special trailer tire.

·Special tread and carcass structure offers high load capacity on soft surfaces.

·With its specially developed tread compound and geometry, it offers high resistance against cuts and stubble puncture.

·It does not sink into the ground and absorbs the impacts thanks to the flexible carcass structure.

## ■ ALL SIZES

9.00-16	14PR	TT	128/A6
9.00-16	16PR	TT	131/A6

# IMP-80

Modern harvester and trailer tire.

- Low dynamic rotating resistance thanks to its 5 Rib design.
- Suitable for short period transport and use in the field areas.
- Prevents from slide to sides and sinking into the ground due to its wide base area.
- High resistance against cuts and wears thanks to special tread compound.

# TR-130 AGROVEST

R1W Harvester tire with aramid belted structure.

·Whether driving on the road or on the field offers comfort.

·Unique tread design and strong carcass offers high traction and excellent handling on the field and tillage operations.

·No plants damage thanks to its rounded lugs.

·Aramid belted structure makes the tire five times stronger than steel without make no extra load and offers longevity.

·It does not sink into the ground and absorbs the impacts thanks to the elastic structure.

·Perfect grip to soil / slide free transmission of power to the ground with tread geometry, designed differently on center and shoulders.

800/65 R32 (30.5 R32)	TL	178 A8/178 B

# SB-140 AGROVEST

Radial modern harvester rear tire with aramid belted structure.

- Offers outstanding traction on hard and soft surfaces.
- Special tread compound extended service life whether it is used on soft or hard surfaces.
- Fuel consumption efficiency thanks to its low rolling resistance.
- High load capacity and minimum soil compaction.
- Strong construction provides excellent performance and endurance.

**SIZE**

**SB-140/70 SERIES**

400/70 R20	TL	158/146 A8
------------	----	------------

# IMP-70

Harvester rear and trailer tire.

- Unique pattern design allows excellent grip and handling in any condition.
- Stable central tread section with open shoulder design offers high comfort and longer life.
- Strong sidewall construction and resistant bead construction provides excellent protection against all kind of damage.
- Good floatation and self-cleaning features.
- Fuel consumption efficiency thanks to its low rolling resistance.

## ■ ALL SIZES

# TR-330

R1 tire designed for high load tractor and harvester applications.

- With its specially developed tread design, it provides superior traction without damaging your crops and compacting the soil.
  - With its specially developed tread compounds and lug geometry, it offers high resistance against lug fatigue and tread wear.
  - Low profile structure provides excellent maneuverability and handling comfort.
  - Reduced vibration with frequently placed lugs.
  - Superior durability against cuts and impacts with reinforced sidewalls.
- Offers high load capacity.

## SIZE

30.5L-32

18PR

TL

170/A6

# SMF-18

General purpose floatation tire.

- Suitable to use on soft surfaces with non-aggressive pattern.
- Non-aggressive pattern design offers large footprint, reduced soil compaction and ensures perfect balance.
- Resistance against side impacts with strong structure and reinforced sidewall compound.
- Absorbs side impacts with its special sidewall compound and grips the soil perfectly and prevents the vehicle to slide to sides.
- Strong tread and strong shoulder structure enable high load capacity.

## 2017 EDITION

Starmaxx Agricultural Tires are characterized by quality workmanship, leading edge technology, unique tread designs and excellent performance offering perfect mix of quality and value.

Our success depends on exceeding the expectations of our customers and standing behind everything we do.

Our aim is to build long term relationships with our customers by providing excellent service, quality and delivering our promises.
